PAST PERFORMANCE

Selected engagements

FEDERAL CIVILIAN AGENCY

Data Center Modernization & VDI

Multi-site infrastructure refresh and Horizon View VDI rollout. Mission-critical workloads migrated to a modernized data center with zero unplanned downtime.

DOD COMPONENT

Multi-Site Network Refresh – 100+ Sites

Wired and wireless refresh across U.S. and international sites; ~250 switches and ~1,500 APs migrated with DoD-compliant disposal.

FEDERAL MISSION CUSTOMER

Penetration Testing & CMMC Alignment

Autonomous penetration test of 1,500+ internal assets in under 30 hours. Identified paths to domain compromise and sensitive data exposure; 95% remediated via EDR and lifecycle changes.

FEDERAL CIVILIAN AGENCY

Endpoint, EDR & Identity Modernization

Zero-Trust foundation deployment. EDR/XDR rollout across thousands of endpoints, MFA enforcement, and identity governance integrated with existing PIV/CAC infrastructure.
